# Black & Green Wednesday

# STOP Killer Coke

## How can a soft drink kill?

Before you take another swig...
consider the charges against
Coca-Cola and its bottlers:

- In Colombia, union organizers are being murdered by hired death squads
- In India and Ghana, Coke drains wells and dries up ponds
- In Mexico, Coke pollutes the drinking water
- In El Salvador, Coke buys sugar from plantations that use brutal child labor
- In the U.S., Coke leads the junk food industry in seducing kids into eating habits that lead to epidemic diabetes, obesity and tooth decay

A growing movement of unions, students and governments are challenging Coca-Cola. At least 20 U.S. colleges have cancelled contracts with Coke.

Learn the truth behind the Real Thing in a panel discussion with:

- **RAY ROGERS, national director, Campaign to Stop Killer Coke**
- DON FITZ, Gateway Green Alliance/Green Party of St. Louis
- LORI REED, American Friends Service Committee [moderator]
