

Black & Green Wednesday

From the makers of the Hands Off Venezuela film "Solidarity," and the Sanitarios Maracay short film series, "No Volverán" is an exciting feature length documentary about the Venezuelan Revolution.

In this in-depth investigation we journey through the fervor of the Presidential Elections of 2006, travel deep into the shanty towns (barrios), and visit several factories under workers' control to find out why there is a movement to overthrow capitalism.

What is Socialism of the 21st Century, and how is it changing peoples' lives?

A panel discussion will include:

- **David May**, Hands Off Venezuela
- **Daniel Hellinger**, Political Science Professor, Webster University
- **Zaki Baruti** [moderator], Green Party, Universal African Peoples Organization

7 pm, Wednesday January 2, 2008
