5249 Delmar (near Union)

St. Louis, MO 63108

St. Louis has just witnessed the re-election of one of the most corrupt, racist, violent and anti-environmental mayors in its history. What does this indicate for other US cities? How do unions fit into St. Louis politics?

What needs to be done for 2010 elections in Missouri and throughout the US? As some countries move to the left, others move to the right. Elections across the globe can affect life in St. Louis in ways that may not seem obvious. A panel discussion will include:

- Zaki Baruti, Universal African Peoples Organization
- Delores Mills, AFT Local 420 retiree
- Angelika Mueller, Green Party of St. Louis
- Dan Hellinger, Political Science, Webster University
