Our Right to Safe, Affordable Homes

Every citizen should have a home that is free of lead and mold. Eminent domain must cease, in both St. Louis City and County. As the economy slides, we must protect our homes with a moratorium on foreclosures, evictions and utility shutoffs.

Hanging Out to \$ave Dough!

...and Save the Planet, too!

To keep utility bills low, we need to trim the use of gas and electricity. Clotheslines are free to use and inexpensive to install while clothes dryers are the home's second worst utility hog among appliances.

Alexander Lee of Project Laundry List will deliver the keynote address about the amazing rewards of cold-washing and air-drying for low income households. The laundry room is a great place to start cleaning up the mess of personal finance, consumerism, climate change, and energy security.
