*Willie Marshall's*  
**Position on Peace & Social Justice**

As a community activist, I stand firmly for SOCIAL JUSTICE. I'm for:

- \* **Passing the Kennedy civilian oversight bill** with subpoena power to help control the police
- \* **Stopping all outsourcing and privatization** of public and city services
- \* **Maintaining the public school system**
- \* **Immediately releasing the over \$100 million** in State Desegregation Settlement funds designated for St. Louis Public schools, now being held up by a court appeal filed by democratic Attorney General Jay Nixon
- \* **Rolling back past tax abatements** and denying future tax abatements to businesses in order to increase the tax base to fund public education
- \* **A Universal Living Wage and Health Care policy**
- \* **Safe drinking water and working conditions**
- \* **Replacing bus shelters** in the inner city
- \* **Free public transportation** for seniors & pregnant women
- \* **Establishing a new Department of Civic & Social Responsibilities** for St. Louis to empower citizens to participate in solving social & economic problems

On the question of PEACE, I'm for:

- \* **Ending the war in Iraq**, bringing the troops home, and repealing the Patriot Act
- \* **Calling a conference of inner city mayors** to discuss ending the war and redirecting the funds toward rebuilding inner cities!
