

Section 4. Enforce Antitrust laws.

Enforce antitrust laws on businesses operating in Missouri and support measures to encourage new entrepreneurs.

Section 5. Income Equality and Taxation.

5a. Income and wealth equality. Fund economic improvements by increasing taxes on those who have over \$200,000 of annual income.

- i. Establish a “maximum income” by a 92% tax (as in the 1950's era) on all income which is more than 20 times the livable income.
- ii. Resist efforts to reduce the existing estate tax system.
- iii. Place a small tax on every stock exchange transaction.

5b. Tax system that is fair for all. Establish a fair tax system that encourages low and middle income persons and small and medium businesses to thrive, and that eliminates tax loopholes and corporate welfare that benefit only the rich and large corporations.

5c. Alternatives to capitalist forms of business. Create incentives to form cooperatives and other non-capitalist style organizations to provide products and services.

Section 6: Physical and Human Infrastructure.

6a. Infrastructure rebuilding and expansion. Use environmental friendly technologies to build public buildings, streets, bridges, schools, public transportation, water systems and sewers. Rely on wind and localized solar for electricity and minimize transmission. Heat and cool buildings with zero-energy “passive house” design and renewable electricity.

6b. "Rebuild" public colleges and other post-secondary education programs. Public and other post secondary education programs should be tuition free. The liberal arts foundation to education needs to be restored for a healthy society. Ensure that the content of classes and research are not unduly influenced by business interests.

6c. Elementary and high school education. Fully fund all levels of public elementary and high school education. No state funding of charter, parochial, or for-profit schools.
