

14<sup>th</sup> Annual  
Great Green

**Saturday, September 18, 5-10 pm**

**Eden Theological Seminary - Commons Bldg Dining Hall**

**475 East Lockwood Ave, St. Louis MO 63119**

(across from Webster University, corner of Lockwood & Bompert)

Special Presentation on  
**Our Kids & Lead Poisoning**

Lead poisoning is ravaging Missouri, the state that provides over 95% of US lead. St. Louis has lead poisoning rates in children as high as 55% in some neighborhoods. Lead reduces IQ, harms math and reading skills, and increases aggression. Learn more from...

**Bob Lunsford** of *People At Risk*, profiling lead contamination in rural areas and state-wide efforts toward clean-up, and...

**Lee Blount, Jr. M.D.** of *Health & Environmental Justice*, describing clean-up efforts in St. Louis and the health challenges faced by our suffering kids.
