

Stem Cell Initiative in Missouri

Will the Stem Cell Initiative that Missourians vote on in November be beneficial or harmful for the black community?

Supporters claim that the constitutional amendment is necessary to give Missouri patients access to medical cures available in other states. Opponents charge that the initiative would target low income women for harvesting eggs to be used for cloning.

The program will include:

- Ziah Reddick, Green Party, Universal African Peoples Org [moderator]
- B. T. Rice, Pastor, New Horizon 7th Day Christian Church
- Stephanie Rubach, Missourians Against Human Cloning
