

The effects of
climate change,
peak oil and toxic
production are here.

We know it every time we
see news of weather disasters
and disappearing species.

We feel it every time we buy gas.

We hear it every time a child
uses an asthma inhaler.

HOW do we create a society
without environmental catastrophe...
Without individual cars and ever
expanding mountains of garbage?

How do we **INCREASE** enjoyment

while we **REDUCE** production...

Without worsening the lives of low
income Americans and the poor
throughout the world?

SURVIVING CLIMATE CHANGE *Producing Less + Enjoying It More*

Fri eve - Sun aft, June 27-29, 2008 • Webster University, 420 E. Lockwood Ave, St. Louis MO 63119

The roundtable is an open discussion on remaking American society, focusing on developing *solutions*, rather than repeating problems. For a full schedule, list of speakers and registration info, call 314-727-8554 or visit www.gateway-greens.org

Roundtable speakers include: digger (aka Daniel Romano), Wes Jackson, Stan Cox, Fredrick D. Carter, David Henry, Dr. Rosa Kincaid, Erin O'Reilly, Abbe Sudvarg, Jifunza C.A. Wright, Marti Crouch, Mark Donham, Jim Scheff, Kat Logan-Smith, Carol Braford, Pam Talley, Dan Hatch, Darin Triplett, Ralph Wafer, Tim Montague, Jeff Howard, Tim Montgomery, David Orr, Rob Sadowsky, Don Fitz, Ben Wuloo Ikari, David Schweickart, Mitchell Szczepanczyk, Ben West, Carmelo Ruiz, Lori Reed, Fredric Raines, Elizabeth Fattah, Zaki Baruti, Jane Anne Morris, Kim Scipes, Mary Ann McGivern, Brian Tokar

Sponsored by *Synthesis/Regeneration: A Magazine of Green Social Thought* and the Webster University Department of History, Politics and International Relations
