# Black & Green Wednesday

The Mountaintop Removal Road Show includes a stunning 20-minute slide show about the impacts of mountaintop removal on coalfield residents, communities and the environment, and features traditional Appalachian mountain music and shocking aerial photos of decapitated Appalachian mountains. David Cooper will discuss how to support the resistance movement. Larry Rice will explain coal in St. Louis, problems with heating homes, and alternative forms of energy. Elston McCowan will challenge the spiritual values of a society based on ever-increasing consumption.

## Mountaintop Coal Removal & Energy in St. Louis

7 pm, Wednesday  
December 1, 2010
