**7 pm, Wednesday
March 2, 2011**

**Legacy Books & Cafe
5249 Delmar (near Union)
St. Louis, MO 63108**

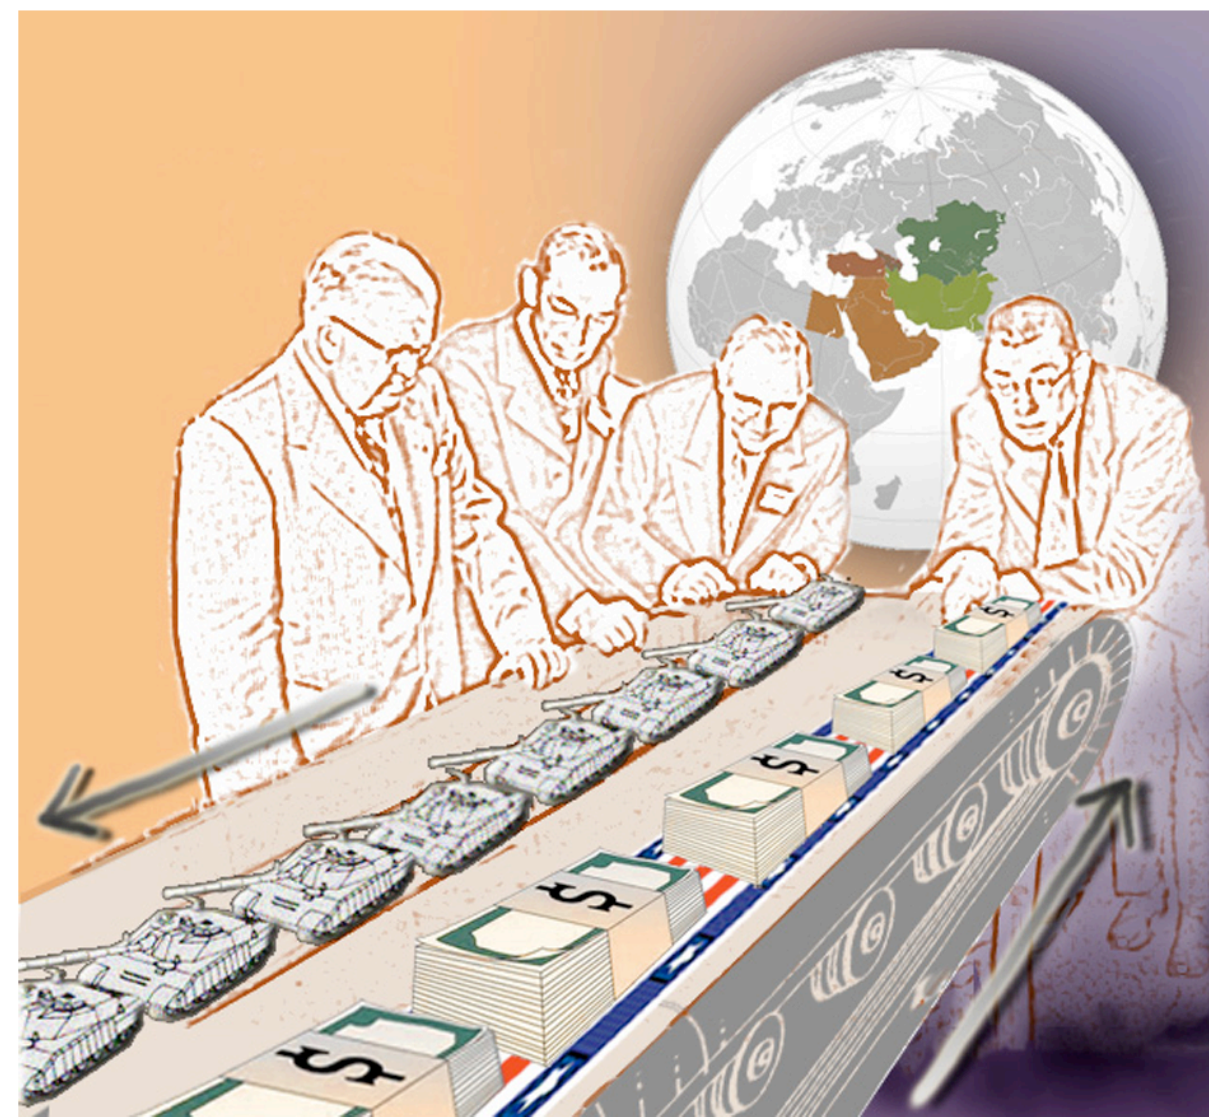

Never-Ending War in the Middle East & Central Asia

A new generation of Americans is growing up accustomed to having war throughout their lives. Wars kill and maim people, drive them from their homes, destroy physical infrastructure and rip apart thousands of years of cultural advances.

The US is left without funding for education, health care and other basic needs of its citizens. Spending cuts hurt people of color most deeply. Veterans are left with disabilities and emotional scars that will last a lifetime.

Veterans are working to help heal those who return home and their families. Join your friends in discussing how we can reverse the moral decay.
