

MAY DAY CELEBRATION

Vegetarian fundraising dinner
for the Gateway Green Alliance

As the economic crisis deepens, Americans are told they must fear Muslims, emigrants, people of color and everyone who might be considered different.

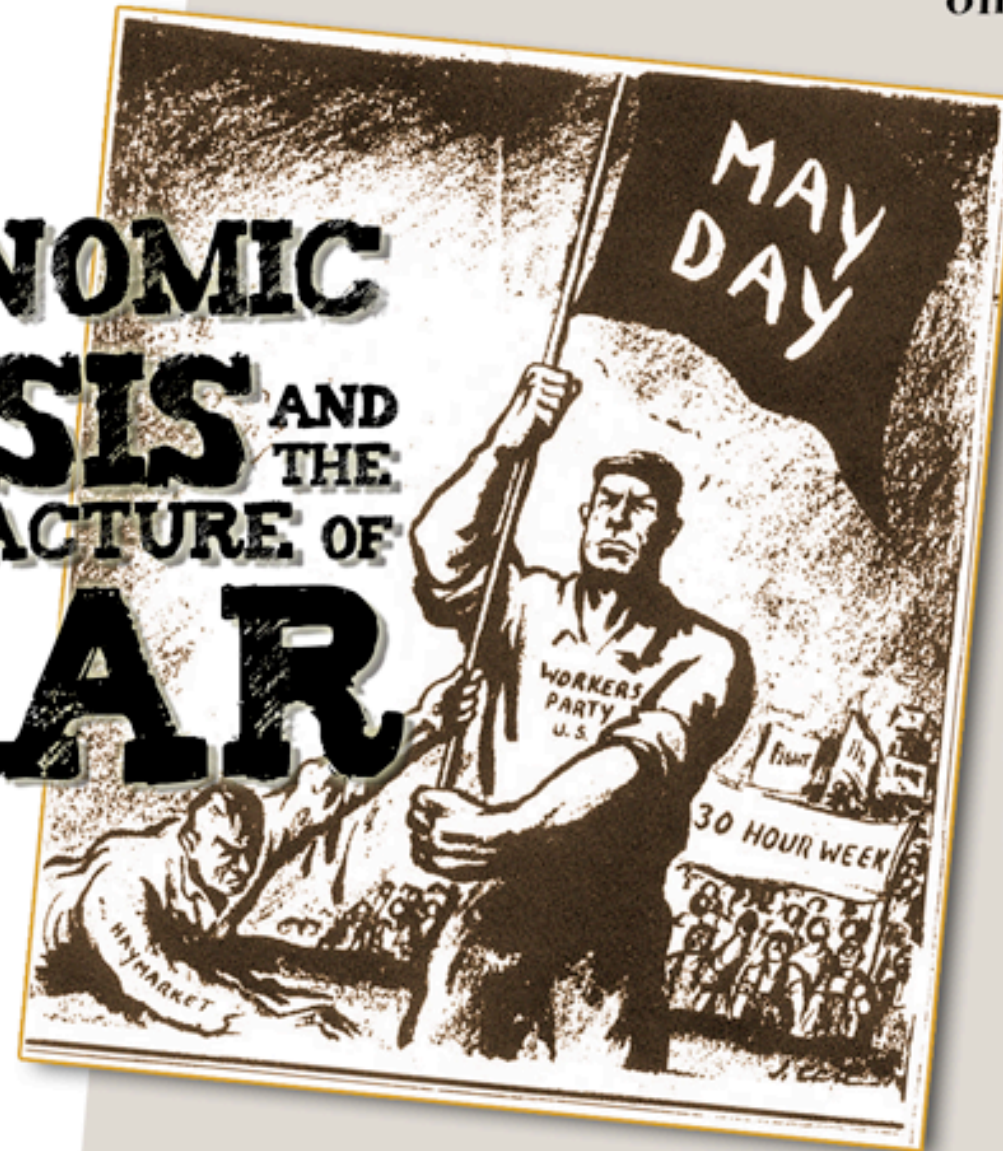

And, of course, we hear that social security is collapsing and a government that has unending funds for war cannot afford basic rights for citizens such as education and health care.

Events in Wisconsin foreshadow the attack on labor which we can expect to intensify throughout the country.

Celebrate International Workers Day by looking at how we can fight back and create a just society. Please join our discussion...
