Eugene Frison, Treasurer

The Public Administrator

(PA) is in charge of caring for the financial needs and the general welfare of those who (for whatever reason) are unable to care for themselves.

Current duties are limited to resolving wills and other probate issues, including taking charge of the assets of city residents who die without family or a last will and testament, and acts as guardian for the mentally ill or developmentally disabled adults who the Probate Division has determined are unable to meet their needs for food, shelter and clothing.

The way the Charter is written and given the resources and staff, I will expand the number of people served through the Public Administrators office by implementing an ombudsman and mentor type program.

In addition to individuals currently served through the PA office, I propose this new program to speak for those neglected St Louis residents. Some have no family, or the family lacks the legal knowledge or resources to assist them. They face a variety of problems that makes it very difficult for them to function effectively.

As your new Public Administrator I will assist when other institutions fail to perform. I will publicize cases of deliberate institutional indifference. I will speak on behalf of those:

1. Incarcerated in Juvenile Detention, City Jail, and the Workhouse
2. Students referred to Truancy and Drug courts
3. Street People coping with mental illness
4. Homeless People,
5. Undocumented Workers and their families
6. Unemployed and underemployed
7. Victims of racism and discrimination
8. Those struggling with addiction
9. Anyone else living on "The Edge"
